PROFESSIONAL OVERVIEW

Strategic technology leader with 15 years of experience in technology consulting, AI-driven enterprise solutions, and business development. Excels in executive stakeholder management, AI strategy, sales enablement, and product leadership—driving innovation, automation, and measurable results.

WORK EXPERIENCE

Senior Product Manager

KPMG, Atlanta | 2021 – present

- Led the migration of a federal agency's financial service operations to ServiceNow, improving customer experience for 1.3M users and securing a \$4.1M renewal contract.
- Architected AI-powered solutions, streamlined operations, and launched transformative service models that enhanced business agility across GovTech, FinTech, SaaS, and cybersecurity sectors.
- Streamlined the Portfolio Investment Management and AI intake process, managing over 20 new solutions monthly.
- Led a cross-functional Cloud Operations team, managing a \$2M budget and developing an automated PnL financial model and playbooks for long-term scalability.

Senior Solution Consultant

Altametrics, Costa Mesa | 2014 – 2021

- Designed and implemented AI-driven ERP, workforce management, and predictive intelligence into 3,000+ units at leading restaurant brands.
- Secured \$10M+ in upsold revenue, successfully leading change management & executive consulting.

Business Analyst

Ingram Micro, Santa Ana | 2013 – 2014

- Engineered cloud computing & digital transformation solutions, enhancing marketing, analytics, and enterprise UX.
